

Prohibits illegal dumping in client waste containers

PitBUL™ Automatic Bar Locks

PitBUL™ Automatic Bar Locks from Binova offer waste haulers the ultimate bar lock solution. Easy to install, and incredibly heavy-duty and secure, **PitBUL™** Locks utilize a special patented design that automatically spring returns after dumping, allowing haulers to dump locked containers without leaving their seat.

Key benefits of PitBUL™ Automatic Bar Locks:

- ✓ Very easy to install
- ✓ Safe! Does not require driver to exit truck
- ✓ Incredibly durable and built to last in the toughest of environments
- ✓ Protects haulers and clients from the liability of toxic or criminal waste
- ✓ Lowers amount of waste across the board, while providing higher customer satisfaction
- ✓ Features a manual locking padlock catch, which bypasses the tilt-to-dump feature for easy use
